Re: 1:00 pm Friday, June 6th: "What to Expect Next (in the wake of the Isla Vista tragedy): Predicting Future Needs" presented by Academic & Staff Assistance Program (ASAP)

The Academic & Staff Assistance Program (ASAP), in conjunction with Professor Michael Furlong from the Gevirtz Graduate School of Education, will be presenting a briefing specific for faculty and academic employees on Friday, June 6th from 1:00 - 2:30 pm in the MultiCultural Center.

This briefing will provide a practical and informative session on what to expect in the weeks and months to come as this tragedy cycles through a typical course of post-event milestones and how we can be prepared to respond.

Please stop by the MultiCultural Center on Friday, June 6th at 1:00 pm to take part in this briefing. No registration required.
