Re: PPS freeze on academic employees lifted

Processing for the July 1, 2014 salary adjustment for Academic employees is complete and the PPS freeze is now over.

A few reminders:

The July 1, 2014 salary scales have been posted to the Academic Personnel web site under "UCSB salary scales" at: <https://ap.ucsb.edu/>. The new rates should be used effective immediately for any July 1 or later actions.

Departments are encouraged to verify the salaries of employees using data warehouse or PPS.

Faculty summer salaries were not automatically adjusted. July 1 or later summer salary that was input at the pre-increase rates will need to be manually updated by the department.

Please direct any questions related to the salary increase to my attention at the e-mail listed below.
