I. Off-Scale Appointments

In instances of market pressures, efforts should be made to separate the issue of academically merited rank and step from the issue of the requisite salary needed to recruit a member of the faculty. For those academic areas in which market pressures are a consideration, departmental recommendations for appointment should reflect (a) a recommended rank and step appropriate to academic and professional achievement; and (b) an appropriate off-scale together with documentation of the market conditions that justify it.

II. Off-Scale Advancements

Off-scale supplements are retained in on-time, normative advancements. When properly justified an advancement with an increase in off-scale salary may be approved in situations which cannot properly be accommodated through advancement in step only. For example:

a) a record of performance that exceeds that expected for a one-step increase on the ladder but does not meet the expectations for an additional, full one-step acceleration beyond that.

b) the record of performance does not justify advancement to the next step at the normative time but does represent a level of performance that supports a within-step increase.

c) recognition of special services or other achievements not normally recognized by on-schedule or accelerated step advancement;

Red Binder I-36 provides further guidance regarding accelerated actions. Red Binder I-44 provides further guidance regarding the use of off-scale salary in retention efforts.

For faculty already at Step IX, consideration for further merit increase within Step IX is reserved for cases of highly meritorious contributions to teaching, research, professional activities, and service, which fully meet the performance expectations for faculty at the top step of the professorial ladder and which demonstrate progress towards eventual advancement to Above Scale status. An increase within Step IX may not exceed the dollar amount of an Above Scale two-increment advancement. If advanced within Step IX, progression to Above Scale should occur at the normative time at step (four years), with early advancement being lateral (maintaining salary but advancing in rank) and eligibility for future merit determined based on the combination of years since last salary advancement within Step IX and the years at Above Scale.

A faculty member may receive no more than two within-step increases in the off-scale supplement. Additional off-scale increases may not be granted unless accompanied by advancement in rank or step.
