Job Codes and Earn Codes for Intercampus OTP/MLA

- One time lecture/talk/presentation at a University-sponsored workshop:
  - Job code/title: 1650/Guest Lecturer
  - Earn code: HON

- Other miscellaneous work unrelated to the primary duties (e.g. serving on PRP committee)
  - Job code/title: 3999/Miscellaneous
  - Earn code: HON

- Faculty Consulting work
  - Job code/title: 3700/Faculty Consultant
  - Earn code: FCA

- MLAs: remember that FLSA/pay basis must match between home and host campus appointments!
Extramurally Funded Research during AY

- RB VI-14

- Senate Faculty only

- **Release to grant**: grant funds used in place of a portion, or all, of the regular state funded salary for a limited amount of time
  - **Course buy-out**: a specific type of release-to-grant
    - % time corresponds to the faculty member’s teaching load reduced, and pay period corresponds to quarter being bought out

- NOT additional compensation!

- Contact Dean’s office for approval/proper procedure
Extramurally Funded Research– payroll matters

- **What if the release to grant comprises <= 50%?**
  - e.g. 75% on state funds; 25% on grant funds

- **Implement as fund split on main professorial position:**
  - Overall professorial FTE remains 100%
  - Funding split on this position
  - If external funds are being administered outside of the home department (where the professorial appointment resides), must coordinate with funding unit, as only the home dept has access to professorial position elements

- **Sabbatical credit continues to be accrued**

- **See RTG Job aid:**
  [https://ap.ucsb.edu/resources.for.department.analysts/ucpath/course.buyout.pdf](https://ap.ucsb.edu/resources.for.department.analysts/ucpath/course.buyout.pdf)
Extramurally Funded Research– payroll matters

- **What if the release to grant comprises > 50%?**
  - e.g. 40% on state funds; 60% on grant funds

- **Grant-funded portion must be under corresponding Researcher title (see next slide)**
  - Must reduce faculty title % time accordingly
  - Pay basis remains at 9/12

- **Sabbatical credit is not accrued**

- **See RTG Job Aid:**
  [https://ap.ucsb.edu/resources.for.department.analysts/ucpath/course.buyout.pdf](https://ap.ucsb.edu/resources.for.department.analysts/ucpath/course.buyout.pdf)
Extramurally Funded Research—payroll matters

- Positions to be created when release to grant portion > 50%:

Release to Grant/Course Buyout (UC Path request)

- **Do the below only if release > 50% of appointment**
- First obtain approval from your Dean’s office
- UC Path Certification & Input Request form on AP Folio
  - “Release to Grant” section
  - Job Code: corresponding Researcher title code (previous slide)
  - Start/End dates: correspond to 9/12 pay period if course buyout
    - If not course buyout: dates correspond to release dates prescribed by grant
- Recommended: funding unit initiates the request
- Be aware: this process can take time to fulfill!

https://ap.ucsb.edu/resources.for.department.analysts/ucpath/course.buyout.pdf
Release to Grant Example #1 (fund split)

- Professor Barnes wants release to extramural grant funds
- He does this as course buyout for Fall- this is approved by the Dean
- Department standard teaching load = 4 courses/year, so one course corresponds to 37.5% of his salary

- For Fall quarter (7/1 - 10/31), on the Professor position:
  - 62.5% of position funded on state funds
  - 37.5% of position funded on external funds

- Return to 100% funding on state funds for Winter quarter and beyond
Release to Grant Example #2 (dual position)

- Professor Potts is a Full Professor in Mechanical Engineering who has received a DoD contract that requires her to commit at least 60% effort on the project for a set period of time
- This grant is administered through ICB
- ICB submits the UCPath Cert Form request
- For that period of time:
  - *Reduce Professorial appointment to 40%*
  - Add 9/12 Researcher appointment at 60%
- *Return Professorial appointment to 100% thereafter*
  - Also don’t forget to terminate the Researcher appointment

</tbody>
</table>
Timeline Considerations for RTG > 50%

1) AP creates Researcher position & emails position# to department
2) Department:
   a) Ensures position attributes are correct
   b) Funds position
   c) Initiates Concurrent Hire into the new Researcher position
3) AP approves the Concurrent Hire; routes to UCPC for fulfillment
4) Upon fulfillment of hire by UCPC, AP reduces Professorial appointment
6) Department follows up on pay actions, as needed:
   – Overpayment if the Faculty position FTE decrease is past the payroll deadline
   – Missed pay if the Researcher hire transaction is fulfilled past the payroll deadline
*note - coordinate over/missed pay actions with BFS to reduce impacts to employee.
Other Release to Grant Considerations

- Potential for different CBR because of different position (different rate for Professor vs “other academic” [Researcher])

- Potential for sick/vacation accrual, depending on the length and FTE of Researcher position

- Funding agencies may have limitations on ability to do salary cost transfer if RTG is processed too late

- If both home department and funding unit prefer to use dual-position method regardless of % release, this is okay, too!
  - But remember: you cannot use the fund-split method if the release > 50%, you must use the dual-position method in that case

- All June summer salary can be input as soon as possible, as normal

- If 7/1 MP action has already been finalized (or no MP action pending):
  - July-Sep summer salary can also be input as soon as possible

- If 7/1 MP action is currently still pending:
  - Try to wait until case is finalized before inputting July-Sep summer salary

- Summer salary already in UC Path prior to 7/1 and then merited?
  - Must manually adjust the comp rate for July/Aug/Sep summer salary
  - Potentially also FTE, e.g. for flat rate payments
UC Path Procedure

- Summer Salary transactions are managed by Departments

**Identify Position**
- Use existing positions, updating FTE if necessary via Position Control *prior to hire transactions*
- Request new positions, if needed, via the UCPath Cert form

**Fund Position**
- REG line
- ACR line(s)
- Each Distribution totals 100%

**Concurrent Hire**
- Effective Date
- End date
- Pay Freq: 9/9
- Check “End job automatically” box
- Earns Distribution ACR
- Fulfilled by UCPC
- PayPath action to change FTE/pay rate, if needed

Position

- Review existing positions
  - Identify positions & attributes in Vacant Budgeted Positions or Data Warehouse report
  - Request new positions (AP Folio UCPath Cert) if needed

- Update position attributes via Position Control
  - Best Practice - use a date in advance of the start of the summer salary (*e.g. 5/15 for a 6/1 Hire*)
  - Update FTE and validate/correct all other position attributes as needed
    - If position is to be used for multiple months, can only set up the 1st month via Position Control
    - Future months set up occurs via PayPath once employee record is active
    - Reminder: effective dates on Positions can only be used once - corrections need to be submitted to UCP via a Case; Best Practice - use an earlier date for Position Control actions
      - (*e.g. update a position for a 6/1/22 Hire, use 5/1/22 effective date for the position change - this allows you to make additional updates if something changes, or new corrections are identified*)
  - Route to AP for approval

Funding

- Enter an REG line (blank earn code) with account string & 100% Dist.
- Add (+) ACR line(s) with account string information
  - Total Distribution Percent across all lines equal to 100% (one line = 100; two lines = 50/50)
  - Since summer salary is all paid out under ACR earn code, this is the fund the payment will issue from

Funding entry can be input prior to initiating the hire transaction
Exception: if fund is capped (NIH) - the link to the required MCOP worksheet will not appear within the Funding Entry component until after the incumbent is hired into the position

Resource - Summer Salary Funding Entry:
Funding (not including Capped funds)

ACR line(s):
- can have more than one entry
- total Distribution of all ACR must equal 100%

“Blank” Ern Cd line is the REG entry
Capped Funds – Above the Cap
Funding Entry Instructions

- If compensation falls below the NIH Cap, follow the general instructions provided in previous slides & corresponding reference documents
  - Use faculty member’s ACTUAL salary, not NIH cap

- If compensation falls above the NIH Cap:
  - Options:
    ▪ Fill the gap between NIH cap and faculty’s actual salary
    ▪ Leave the gap as-is - faculty only receives pay up to the Cap
  - Refer to the Job Aids (listed in next slide) for step-by-step instructions

*Remember: the Hire must be processed BEFORE funding entry - the MCOP Worksheet link will not appear in the Funding Entry screen until the employee record is active in UCPath*

Hire Template – Concurrent versus Rehire

The Concurrent Hire or Rehire template may be used, depending on the circumstance:

▪ **Academic Concurrent Hire** template, with Academic Concurrent Hire Reason Code:
  - Creates a new Employee Record Number
  - MUST be used when the employee DOES NOT have an existing inactive job record in your Dept.
  - MAY be used in lieu of the Rehire template, however, this will ADD new employee record #'s

▪ **Rehire Academic** template, with Academic Concurrent Hire Reason Code:
  - Uses an existing Employee Record Number (stacks new appointment on previous record)
  - SHOULD be used IF the employee has an existing inactive job record in your Dept. in UCPath
  - Requires initiator to select the Employee Record Number to be used in the Rehire Template prior to being able to submit transaction for approval
  - Note: Last year this template generated an email prompting the employee to review benefits - per UCPC, this has been resolved and should no longer occur. If it does occur, the employee can just review current enrollments to confirm no changes occurred - if issues are identified, create a Case with UCPC.

▪ Departments are responsible for reviewing the employee’s Person Org Summary, understanding the implications, and determining the best practice for their Dept.

Reference - Summer Salary Position/Hiring Job Aid:
1. Pay Components should match the Professorial position.

2. JED information MUST be on the Hire transaction:
   - Earnings Distribution = “By Percent”
   - Earnings Code = “ACR”
   - Percent Distribution = 100%

3. Include the Expected Job End Date & End Job Automatically checkbox.
Job Data and PayPath

- Department validates attributes in Job Data - (FTE, JED, pay components, etc.)
  - If corrections are needed, department initiates PayPath action and/or UCPC Case, as needed

- Department updates Position and Job Data attributes via PayPath (or Case if needed)
  - E.g. FTE changes for future months, M&P increases, JED corrections, etc.
  - AP-Path approves: confirms data elements are input; does not validate attributes are correct

- Be aware of retroactive actions
  - If pay has been issued on the record, the retro-module:
    - *Will* pick up and pay salary increases on the next on-cycle check
    - *Will not* pick up FTE changes - department must initiate missed/over pay via BFS ServiceNow
  - Changes **must** be in Job Data before corrections to pay can be processed by BFS
  - If future dated rows exist in Job Data, retroactive changes may overwrite future data points erroneously
    - Review Job Data to determine corrective action (PayPath or Case)
    - Pay attention to timing - this may lead to over/missed pay requiring additional action
When do I need to initiate a Case with UCPC?

- To update the FTE on a record where the “date is taken” (FTE was updated on that date based on original summer salary calculations; now the faculty increased the number of days they want to receive pay in that month which requires an FTE update on that same date.)

- When a record is inactive - (Ex. In September you retroactively hire Prof. Jones to receive summer salary for July and August and set the record to auto-terminate so pay does not issue in September; the FTE for the August summer payment needs to be updated, but the record is inactive.)
Best Practices: Summer Research Salary in UCPath

- Use the same Positions and Employee Record Numbers with the same faculty each year - this allows you to view the history of summer salary each year on the same record

- Update position FTE via Position Control with an advanced date - leave room for corrections (Ex. Update the position effective 5/15 for a 6/1 Hire)

- Fund the position before initiating the Hire transaction
  - (Exception: Salary Cap / MCOP Funding worksheet is not available until AFTER the incumbent is hired into the position)

- Pay attention to Payroll deadlines and timing of actions
  - Process in time for pay deadlines whenever possible
  - Identify when missed pay/over pay needs to be initiated with BFS

- Paychecks can be reviewed in advance on Pay Confirm days - refer to Payroll Calendar and be proactive when possible
Other General Strategies and Best Practices

- Consult commitment sheet for startup 1/9ths exact amounts
- Advise faculty to consult with their tax advisor if they are concerned about the withholding amounts over the summer
- AP will not validate your calculations, so be sure they are correct
- Remember that a day can only be used once
- Check the “End job automatically” box!
- No such thing as “summer salary” for retirees- it’s just a Recall appointment and can be paid any time during the year!
- Coordination when multiple departments/units are involved
  - Ensure maximum values (e.g. not re-using a day, $ amount max) are not exceeded
- Post-audit job record in UCPATH to fix any potential issues prior to pay
